

Project Design Phase-II Data Flow Diagram & User Stories

Date	09 November 2022
Team ID	PNT2022TMID51548
Project Name	Containment Zone Detection Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

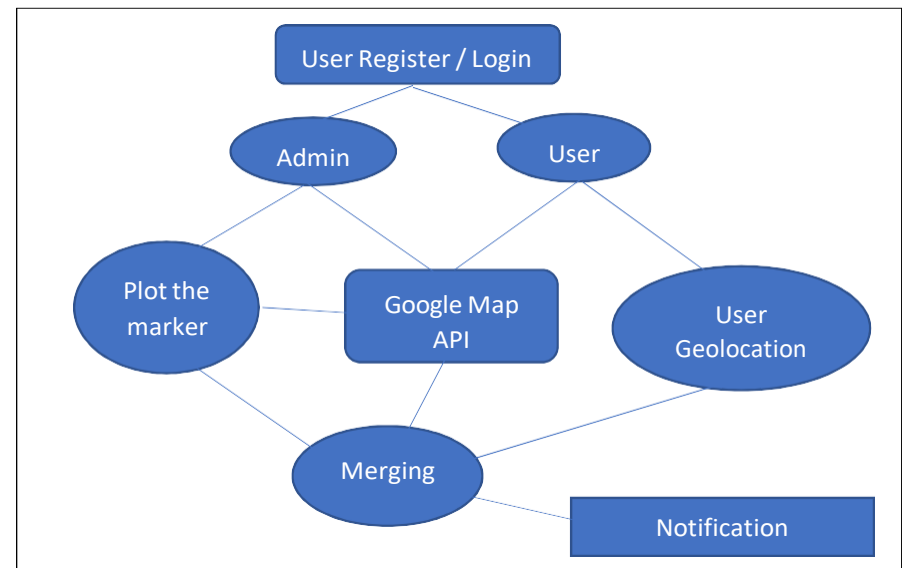

Example: (Simplified)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)

User Stories:

User Type	Functional Requirement	User Story	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will deny confirmation made on me	I can receive confirmation	High	Sprint-1
		USN-3	As a user, I can register for the application through Gmail	I can register & access & dashboard with Google	Medium	Sprint-1
	Login	USN-4	As a user, I can log into the application by	I can see the homepage	High	Sprint-1
	Dashboard	USN-5	As a user, I can see the options available for User account.	I can see the dashboard	Medium	Sprint - 2
	Background running	USN-6	As a user, I allow the app to run in background.	I should change the app settings to allow app in background	High	Sprint - 2
	GPS	USN-7	As a user, I allow the app to access my location.	I should accept the permission to access location	High	Sprint - 2
	Google Maps	USN-8	As a user, I can see the containment zones using the maps via Google Maps.	I should accept location permission	High	Sprint - 3
	Notification	USN-9	As a user, I allow notification access for the application.	I should allow notification access	High	Sprint - 3
Administrator	Login	USN-1	As admin, I log into the administrator panel.	I can access the admin	High	Sprint - 1
	Cloud	USN-2	As admin, I use the cloud services to maintain users and the containment zones	I work with cloud services	High	Sprint - 2
	Cloud Database	USN-3	As admin, I store the user details in the cloud database.	I get the details of the user and store in the cloud	High	Sprint - 2
	Maps	USN-4	As admin, I will enter the containment zone's location.	I should enter correct coordinates of containment	High	Sprint - 3
	Mail	USN-5	As admin, I set up a mail system to alert users when they enter a containment zone.	I use email system to send alerts to users.	High	Sprint - 3
	Updating	USN-6	As admin, I should frequently update the details and the location of the containment zones.	I fetch data from Internet and update the zones and the related details.	High	Sprint - 4
